NDS SUSTAINABILITY EFFORTS

- Reduction in carbon usage within our vehicle fleet through:
 - Acquiring vehicles with the latest engine technologies
 - Automatic transmissions
 - Idle shut-down timers
 - Tractor, trailer and straight truck aerodynamics
- Routing efficiencies to reduce delivery miles and mitigate "empty miles"
- Energy conservation initiatives by utilizing high efficiency lighting in all terminals
- Company investment in Alternative-Fueled vehicles
- Reduce-Reuse-Recycle company philosophy

Scalable - Flexible - Reliable
